

Objective:

B.E. Computer Science graduate skilled in Java, Spring Framework, SQL, and MVC architecture, seeking a Software Engineer position to develop scalable applications and contribute to innovative tech solutions in dynamic teams.

Area of Interest:

- **App Development** (Flutter)
- **Web Development** (MERN)

Education:

- **Bachelor of Engineering in Computer Science and Engineering** | Dr.Mahalingam College of Engineering and Technology, Pollachi
2023 – Apr, 2027 | GPA: 8.5[Till 5th Sem]
- **HSC** | Srinivasa Vidhyalaya Matric. Higher Secondary School, Udumalpet
Apr, 2023 | Percentage: 92
- **SSLC** | Srinivasa Vidhyalaya Matric. Higher Secondary School, Udumalpet
May, 2021 | Percentage: PASS

Skills:

Technical Skills:

- **Programming Languages:** Java, Python, C
- **Tools:** Git, Docker, Google Cloud, Postman
- **Database:** MySQL, PostgreSQL, MongoDB
- **Frameworks:** Flutter, Spring Boot, Flask
- **Concepts:** Microservices, REST API, MVC Arch.

Soft Skills:

- Communication
- Leadership
- Problem-Solving
- Adaptive & Resilient
- Team Collaboration

Projects:

StockAnalyzer | React, Flask, REST APIs

Oct – Nov 2025

<https://github.com/snehamuthu326/StockAnalyzer>

- Built full-stack stock platform with real-time analytics, live trading alerts, and 40% faster data retrieval.

CloudVendor | Spring Boot, REST API

Jun 2025

<https://github.com/snehamuthu326/CloudVendor>

- Engineered Spring Boot REST microservice enabling CRUD vendor management with 90% unit test coverage.

College Query Management System | Flutter, Spring Boot, MySQL, Docker

Mar – Apr 2025

<https://github.com/snehamuthu326/QueryAPP>

- Developed full-stack role-based workflow system reducing request processing time by 30% with secure REST APIs.

Internships:

Full Stack Software Developer | Coir Plus, Pollachi

Jul 2025

Tech: Python, Flask, REST APIs, Google Sheets API, JavaScript | **Live:** <https://premiumbills.onrender.com/>

- Developed and deployed a full-stack billing system using Python, Flask, and Google Cloud, automating manual invoicing to improve operational efficiency.
- Engineered a scalable web application with a focus on secure data management and professional UI, hosting the live project on Render via GitHub.

Certifications:

- Certified in **Spring Boot for Microservices** – LinkedIn Learning **Jun 2025**
- Earned **MongoDB** Badges in Query Optimization, CRUD Operations **Jun 2025**

Achievements:

- Winner, **NxTech Symposium (UI/UX Track)** – Designed intuitive UI enhancing non-technical user engagement **Aug 2024**
- Awarded **Best Logo Designer** – Created customized brand identity meeting association requirements **Mar 2024**

Extracurricular Activities:

- Led association events (SGS, DigiFlash, Ignite), overseeing planning, coordination, and team execution **Sep 2023 – Present**
